Dear Michael:

Further to my correspondence of October 21, 1998, I have completed my investigation of the matter of the loss of strike benefits during the recent school board lockout. From the information provided by yourself and other affected members and the representatives of the Toronto Secondary Unit, it appears that authorization was provided for alternate duties on September 17, 1998. However, there is no similar corroborating evidence for the absence from unit sanctioned picket duty on September 16, 1998.

Therefore, I recommend that one day of strike benefit be reinstated to the members identified on the official unit strike roster. The payment of these funds will be coordinated through the TSU office.

This will address the matter.

Yours truly,

Marshall Jarvis
President
